

22 November 2018

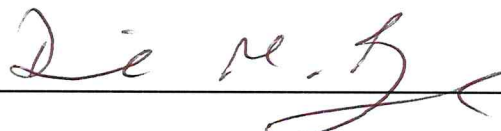

Increase of maximum number of places to be offered in First Year 2019/20 from 144 to 168

The Board of Management of Lucan Community College at its meeting on Tuesday 13th November 2018 decided to increase the maximum number of places to be offered in First Year 2019/20 from 144 to 168.

This decision was made in order to maintain a steady number of students enrolled to maximise the teacher allocation and other resources currently received by the college.

As stated in the enrolment policy, the Board reserve the right to decide the maximum number of places that will be offered in 1st year each year and to make adjustments to the maximum number of students accepted into other year group as it deemed necessary being mindful of the need to ensure overall student numbers do not exceed levels appropriate to the capacity of the school building and safety considerations arising from its design.

Diane Birnie (Secretary to the Board of Management)
